

# Deeper Than Pink

Mac Miller

Yeah  
A love song  
In the key of Lex Luger  
Deeper than pink

I didn't even mean to break your heart  
So lemme put it back together  
It's funny cause I kinda thought  
That this would last forever  
I been goin' through the pain  
Miss when this was at it's pleasure  
"I love you" sounded better then  
Now it just repetitive  
Sippin' on codeine girl that's my sedative  
Cause I can't sleep alone  
When you needed me at home  
I wasn't there, fighting yelling  
You tellin' me nothing is fair  
Girl I got a heart of gold  
And trust me there's enough to share  
Chillin' in your underwear  
We gon' do some fuckin' yeah  
And after that I'll tell you  
How I'm so in love with you  
Lay on top your comforter  
Fuckin' till the sun come up  
Bubble butt, smack you on the ass  
After I bust a nut  
Don't call you honey  
But you sweeter than the candy  
After Halloween and Valentines day  
Both put together  
You never gon' find one better  
This love for you, last forever  
Incredible, take you to festivals  
When you in bed, fixin' your hair  
You know that I love it curly  
I love it when you wake up in the mornin'  
And if it's early we may, fuck a little  
Take her ass to sleep  
I like what I see, I hope she take a likin' to me

My drink is, deeper than pink, but she hate that  
Wanna smack me in my face  
Be like "take that", haha  
But she been my girl since way back  
And I don't think it's ever gon' change  
My drink is, deeper than pink, but she hate that  
She can roll up all my weed  
Tell me "face that", haha  
But she been my girl since way back  
But still, I don't ever wanna change that

My drink is, deeper than pink and she hate that  
She love to talk to stray cats  
Find an address written on their name tag  
She innocent but smart as well

Deadly as the harm she felt  
She either tell you  
All is well or rot in hell  
All depends on how you wanna treat her  
So I try my best  
But, being who I am will have her all upset  
And I don't know what I should do  
Cause I been born to make these moves  
I just hope that I can fix her with a call or text  
All unless, it's complex and difficult  
Tryna figure out, if it isn't or it is my fault  
She keeps to herself  
Locked somewhere deep down in the vault  
Place I haven't been at all  
Where the strong survive and the cripple fall  
Here lets talk out in the hall  
I just wanna know what's on your mind  
Not only cause I love you  
But I'm interested to find  
What's behind those two eyes  
I like what I see, I hope you take a likin' to me  
Hey
