That's On Me

Mac Miller

That's on me, that's on me, I know
That's on me, that's on me, it's all my fault
That's on me, that's on me, I know
That's on me, that's on me, I know

Time moving slowly, I'm bouncing my head off the wall
I know nobody that knows where we're going at all
Don't, don't, don't, don't let me down
And I'll pick up, I'll help you get around

That's on me, that's on me, I know
That's on me, that's on me, it's all my fault
That's on me, that's on me, I know
That's on me, that's on me, I know

I'll let it go
I'll cut the strings
Today I'm fine

I don't where I've been lately but I've been alright
I said good morning this morning and I'll say goodnight
Don't, don't, don't, don't wait around
We'll take the stairs that gets us here to there
As I'm fed up when I'm being too proud but

That's on me, that's on me, I know
That's on me, that's on me, it's all my fault
That's on me, that's on me, I know
That's on me, that's on me, I know
