

# Keep On Keepin' On

Mac Powell

I know we've been searching far and wide  
Wondering when we'll make it to the other side  
With a cloud by day and a fire by night  
I know we'll have some trouble but it's gonna be alright

Taking our time ain't in no hurry  
Living our lives, no worries today  
We'll just keep on fighting the good fight  
And let your light shine on in Jesus' name

Children we're gonna make it  
To the promised land one day  
Yeah the journey won't be easy  
But the Lord will make a way  
Children we're gonna make it  
And I hope it won't be long  
Just hold on tight and keep on keepin' on

I know you've got questions, so do I  
But don't go chasing idols just keep your eyes  
On the God of miracles who gives us life  
He has proven faithful time after time after time

Children we're gonna make it  
To the promised land one day  
Yeah the journey won't be easy  
But the Lord will make a way  
Children we're gonna make it  
And I hope it won't be long  
Just hold on tight and keep on keepin' on

Keep on keepin' on  
Don't stop moving  
God is gonna make a way  
Keep on keepin' on  
What you're doing  
Shine your light in Jesus' name  
Keep on keepin' on  
Don't stop moving  
God is gonna make a way  
Keep on keepin' on  
What you're doing  
Shine your light in Jesus' name

Children we're gonna make it  
To the promised land one day  
Yeah the journey won't be easy  
But the Lord will make a way  
Children we're gonna make it  
And I hope it won't be long  
Just hold on tight and keep on keepin' on

Keep on keepin' on
