Amy Macdonald

2, 3, 4, 1

There was no warning sign
There were no flashing lights
I just knew, when I saw you
I had only just imagined you
Suddenly it all came true
Now you're in my room
And I'm lost with you
And you stopped me in my tracks
There's no way I'm going back
And I wonder if you ever have someone in your life

And we just keep moving forward
I keep moving away from all the dark in my life
If we just keep moving forward
I keep moving away from all the dark in my life

Standing on the other side
Glad to have you in my life
If it all falls through
Well I'll still have you

Even if we fall apart
Nothing will change my heart

You're a part of me
Like I'm part of you
And you stopped me in my tracks
There's no way I'm going back
And I wonder if you ever have someone in your life

And we just keep moving forward
I keep moving away from all the dark in my life
Can we just keep moving forward
I keep moving away from all the dark in my life

Something go right
We know life ain't easy
Stay with the fight
And we'll all pull through
Like we always do

If we just keep moving forward
I keep moving away from all the dark in my life
If we just keep moving forward
I keep moving away from all the dark in my life
If we just keep moving forward
I keep moving away from all the dark in my life
If we just keep moving forward
I keep moving away from all the dark in my life
If we just keep moving forward
I keep moving away from all the dark in my life
Can we just keep moving forward
I keep moving away from all the dark in my life
