

## Physical

Amy Macdonald

As soon as I start living again  
I'm gonna let you know  
As soon as I stop feeling afraid  
Of what I used to know

And if you could hold me again  
Touch me again  
Just like we used to do

I know these feelings aren't just physical  
It doesn't matter, babe. It's natural  
Hear me out, this time it's not for me  
I know that love was just a game we played  
It's understanding that the rules have changed  
Get me out far away from here

As soon as I start trying I'll know  
We're on the road again  
All the time spent wasted alone  
So good to see your face again

And if you could sing me to sleep  
Teach me to dream  
Just like we used to do

I know these feelings aren't just physical  
It doesn't matter, babe. It's natural  
Hear me out, this time it's not for me  
I know that love was just a game we played  
It's understanding that the rules have changed  
Get me out far away from here

Tell me why can't we try  
To make the best of life

Tell me why can't we try  
To make the best of life

Tell me why can't we try  
To make the best of life

Tell me why can't we try  
To make the best of life

I know these feelings aren't just physical  
It doesn't matter, babe. It's natural  
Hear me out, this time it's not for me  
I know that love was just a game we played  
It's understanding that the rules have changed  
Get me out far away from here
