

Trapped

Amy Macdonald

It's how I felt when my lungs were on fire
Under pressure it was down to the wire
I'm deep deep down
There's no way out

It's how I felt when they said it was love
Nothing like I'd been dreaming of
Feeling trapped
There's no way back

What would the people say
If I went my own way
I'm shaking, heart is racing too
Would they look the other way
Tell me it'll be okay
I'm shaking, heart is racing

Can you break me out?
Help me break these chains around my feet
And I'll be finally running free again
Can you break me out?
I know I'll need all my strength to make it
Can't you see my hands are shaking?

Somewhere out there's a second chance
Finally it's held with my own hands
But I've been here
A million times before

What would the people say
If I went my own way
I'm shaking, heart is racing

Can you break me out?
Help me break these chains around my feet
And I'll be finally running free again
Can you break me out?
I know I'll need all my strength to make it
Can't you see my hands are shaking?

Can you break me out?
Help me break these chains around my feet
And I'll be finally running free again
Can you break me out?
I know I'll need all my strength to make it
Can't you see my hands are shaking?

Can you break me out?
Help me break these chains around my feet
And I'll be finally running free again
Can you break me out?
I know I'll need all my strength to make it
Can't you see my hands are shaking?
