

And now I lay awake
My eyes unclosed
The firesnake superimposed
On our barren world tonight
Simple but supreme
The dragon road
Evil and mean
I hear it soar not far above our world tonight

Now the immortal beast descends on me
Prepares to feast my enemy
is taunting me to fight
Simple but supreme
The dragon road
Evil and mean
I hear it soar not far above our world tonight

Nocturnal light and thunder blasting from the sky
The beast is hunting for a prey that cannot die
But this is how it's always been since the dawn of time
And it will always be the dragon fury rhyme

An ancient beast that occupies the high above
A raging monster to be fearful of
Simple aggression purely spawned from mother earth
A true impression of the might of her

Now descend from above
Now descend from above

And now I lay awake
My eyes unclosed
The firesnake superimposed
On our barren world tonight
Simple but supreme
The dragon road
Evil and mean
I hear it soar not far above our world tonight

Now descend from above
