

# Legion Of Stoopid

## Machinae Supremacy

It's time to choose  
Just don't fall for another ruse  
You only lose  
Watch as they abuse  
You keep it up  
And you're only asking for Moore  
You need to stop  
Believing they work for

As time goes  
The lies unfold  
But once you know  
You forget what you were told

They twist and redefine  
The truth they tell is true to them only  
They claim divine  
And assemble at the frontlines  
You're out of line  
If you question or speak your mind  
They want you blind  
Stupid, stupid and behind

What to believe? (What's on TV?)  
Nowhere in sight in industry  
Can you receive  
Without being deceived  
This is your brain  
And this is your brain on Fox news  
You are insane  
If you buy their sell-out truth

As time goes  
The lies unfold  
But once you know  
You forget what you were told

They twist and redefine  
The truth they tell is true to them only  
They claim divine  
And assemble at the frontlines  
You're out of line  
If you question or speak your mind  
They want you blind  
Stupid, stupid and behind

Don't be stoopid, don't be stoopid  
Don't be stoopid now!  
Don't vote for Bush!

Just like the Recording Industry Assholes of America  
They promote mass ignorance cause that's what floats their aerials

Don't let them turn you into legion, legion of stoopid  
Don't let them turn you into drones  
Right now, knowledge is the one weapon  
That you can not throw away

Or else we all will pay
