

Beyond and once again, you know how this is gonna end
the same way it always seems to do
Don't yet know how to deal with what is obviously true
we are better than you

We are all equals here
and we fight for dominion tonight
We don't ask color, race or creed,
dedicated, free-for-all

Passed through my line of sight
You are the one that caught my eye
I'm coming for you right now
Yeah you can try to hide
How many levels can you up
before I track you down and make you die?

We are all equals here
and we fight for dominion tonight
We don't ask color, race or creed,
dedicated, free-for-all

We'll light a fire under you
drop some tunes and just YouTube the sight
But we are all on common ground
and we all stand tall

We are all equals here
and we fight for dominion tonight
We don't ask color, race or creed,
dedicated, free-for-all

We'll light a fire under you
drop some tunes and just YouTube the sight
But we are all on common ground
and we all stand tall

We are all equals here
and we fight for dominion tonight
We don't ask color, race or creed,
dedicated, free-for-all

We'll light a fire under you
drop some tunes and just YouTube the sight
But we are all on common ground
and we all stand tall
