

Space Boat

Machinae Supremacy

Under attack by an alien race
All-out war in the depth of space
This may well be our defining moment
but I just wanna get away
I just wanna get away

Come on baby,
got a space boat just for two
It's all set, just me and you
Brace for escape velocity, now it's time to go!
Come on baby,
got a way out, what are we to do?
I would have done it all for you
But ours is a different destiny,
now it's time to go

You know me, I can't deal with this 'tude
Oh, I would totally fight for you
but not for this fucking planet
I just wanna get away
I just wanna get away

I will wrap myself in your echo,
dream and imagine
Do you remember the night we happened?
The road underneath and the engine?
I just want you to be here
or I will be anywhere, I don't care
just as long as you'll be there
Tonight we will disappear
