

Do or Die

Machine Head

One life, one will
Black heart, black steel
Ignore the hate, it's do or die motherfucker, die motherfucker
(This is do or die)
My hate is real
This fire, it kills
No other choice, it's do or die motherfucker, die

I don't give a fuck about you haters and your hate
You assholes better duck, I'm coming swinging out the gate
There's not a metal band I ain't influenced
Now I'm calling out the Judas
Every band's the fucking same
We'll do it over, oh what you hated bastards?
Catharsis made you sick, your mind was made before it hit
Contort your speakers, sick your mind, dismantle forehead
'Cause you didn't hear a fucking thing
We're not Chimaira, nor Strapping Young Lad
You wanna hate it but you need it so bad
This ain't just a paycheck
The pay's self-expected
Machine Head's in my fucking veins

One life, one will
Black heart, black steel
Ignore the hate, it's do or die motherfucker, die motherfucker
(This is do or die)
My hate is real
This fire, it kills
No other choice, it's do or die motherfucker, die motherfucker

I don't give a fuck about your stupid little scene
Reaction videos and all your pussy little memes
How many fucking bands I gotta bury?
Say a prayer to Mother Mary
Welcome to the slaughterhouse
I hear your motherfuckers talk, talk, talk to me
I marked your body with some chalk, chalk, chalk
See, I'm one in a billion
A fucking chameleon
We just will be the greatest
You are just the latest
In a line of imitators
Step into the terror dome

One life, one will
Black heart, black steel
Ignore the hate, it's do or die motherfucker, die motherfucker
(This is do or die)
My hate (my hate) is real (is real)
This fire (this fire), it kills (it kills)
No going back, it's do or die motherfucker, die motherfucker
Die motherfucker, die!

I'm fucked up in the head
Pitch black, everything's said
I'm fucked up in the head

Don't fucking push me, all I see is blood red
I tried to warn you, my demons will eat you alive
Shred you to pieces, one hundred thousand fucking knives
My soul is septic, dripping lead
That's why I'm fucked up in the head
Agh, go!

You motherfuckers talk, talk, talk, talk to me
I marked your body with some chalk, chalk, chalk
A burning infection
The lethal injection
That'll put you in a coffin
Bury you and walk on off into the night

One life, one will
Black heart, black steel
Ignore the hate, it's do or die motherfucker, die motherfucker
(This is do or die)
My hate (my hate) is real (is real)
This fire (this fire), it kills (it kills)
No quitting now, it's do or die motherfucker, die
