

# Kaleidoscope

Machine Head

We rise  
We fall  
And then we come together and  
Despise this all  
So get your middle fingers in the air  
And sing  
They can't ignore us anymore  
It's up to us  
So hear me out cause I don't give a fuck

I'm stuck  
I'm heading off the deep end like a truck  
No brakes  
I grip the wheel and start to shake  
I beat my chest to feel alive  
Not part of the hive  
Comatose America, the zombies are in charge  
Watch out for your brothers man, it really isn't that hard  
Have our souls turned cold?  
The path I walk is only for the strong and the bold

I walk along a lonely road  
It's all I know

This hole in my soul  
Songs fill what religion won't  
No hope, I can't cope  
Music plays in kaleidoscope  
And if I'm lost  
I don't want to be found  
Haunted by sound

Open up the floor and start a pit  
This shit  
Is building up inside of me  
I can't pretend, that I won't fuckin' snap tonight  
You'll find me nine feet in the grave  
Before I'm a slave  
Catatonic ignorance, the cronies run the show  
Preying on our differences, divide and conquer the low  
While I may be old  
The world I see is only for the strong and the bold

I walk along a lonely road  
It's all I know

This hole in my soul  
Songs fill what religion won't  
No hope, I can't cope  
Music plays in kaleidoscope  
And if I'm lost  
I don't want to be found  
Haunted by sound

Because we rise  
We fall  
And then we come together and despise

Them all  
So get your middle fingers in the air  
And bleed  
They can't ignore us anymore cause  
I don't give a fuck

We rise  
We fall  
And then we come together and despise  
This all  
So get your middle fingers in the air  
And bleed  
They can't ignore us anymore cause  
I don't give a fuck

We rise  
We fall  
And then we come together and despise  
This all  
So get your middle fingers in the air  
And bleed  
They can't ignore us anymore cause  
I don't give a fuck

This hole in my soul  
Songs fill what religion won't  
No hope, I can't cope  
Music plays in kaleidoscope

This hole in my soul  
Songs fill what religion won't  
No hope, I can't cope  
Music plays in kaleidoscope

This hole in my soul  
Songs fill what religion won't  
No hope, I can't cope  
Music plays in kaleidoscope

No hope  
I can't cope  
Songs in kaleidoscope

This hole in my soul  
Songs fill what religion won't  
No hope, I can't cope  
Music plays in kaleidoscope

And if I'm lost  
I don't want to be found  
Haunted by sound
