

# Razorblade Smile

## Machine Head

Call me the billionaire breaker, turn 'em into my bitch  
I'm the king of the freaks a' down here diggin' a ditch  
I'm at a weed cafe on a Netherlands street  
Riding a caffeine buzz and I'm starting to peak  
Mescaline pile, gettin' me high  
Laser beam eyes, puncture the sky  
I'm catching lightning in a bottle and I'm hitting it hard  
I got no time for your bullshit so don't even start

Freak magnet  
Pushin' back at you  
Straitjacket  
I'm a rock star in the gutter and I love it down here  
I'll take a shit on Mar-a-lago while I'm drinkin' a beer

Fuck your champagne wishes and your caviar dreams  
I'll throw a brick through your window  
And I'll kick in your teeth  
I got a methadone twitch with a Vicodin itch  
I'm smoking crank on a foil like a son of a bitch  
Gonna fuck your borders, barbed wire dick  
Gorge on bullshit, #1 spic  
This is an all-black Russian hack, go USA  
Trump's in bed with North Korea  
And that just might be gay, come on

Straitjacket  
Buckle up now quick  
Freak magnet  
I got a .357 and it's loaded and locked  
Pullin' a hair-brain trigger cause the hammer is cocked

I got a razor blade smile and a cocaine tongue  
I got a boner for miles, I'm slinging loads for fun  
Carry a whiskey brown suitcase loaded with hash  
I'm eatin' pussy by a dumpster, beard stinking like snatch  
I'll drink you... under the table with a gasoline smile  
Honey, you're my fire, let's get lost for a while  
Blotto all our memories in bottles of wine  
Got a snake charmer's eyes, now you're caught on my line

I'm chopping rails on a toilet, blazin' up in the stall  
Chuggin' Jack in the food court, throwing up in the mall  
I'm a psychoactive child in a rich man's game  
I bet my future on a bar fight, kickin' ass, takin' names  
I'm a

Freak magnet  
Pushin' back at you  
Straitjacket  
Buckle up now  
Black casket  
I'm in a polka-dot hearse headed straight for the grave  
No class, fast track, I can't be saved
