

# Stop The Bleeding

Machine Head

The endless scroll of human tragedy  
I swipe along as the days go by  
Another brother murdered out in the streets  
I connect to the shame, we don't know what it's like

Born lucky cause the color of skin  
America your heart is caving in  
Somehow I thought this was the land of the free  
Where is our humanity?  
Our humanity

Beating after beating  
Throat choked under knee  
Help me please  
Because I can't breathe  
Just stop the bleeding

Body after body  
Piles up in the streets  
Stand and fight  
Not another life  
Just stop the bleeding

And some will claim it's a conspiracy  
The fake news out to undermine  
When riots fight off white supremacy  
Never given a choice, so they're drawing a line

I stare and look out at the world in disgust  
These men are dying over nothing just  
Good men stand up and show your bravery  
For a lost democracy  
Our democracy

Beating after beating  
Throat choked under knee (Throat choked under knee)  
Help me please  
Because I can't breathe  
Just stop the bleeding

Body after body  
Piles up in the streets (Piles up in the streets)  
Stand and fight  
Not another life  
Just stop the bleeding

Our strife  
Our struggle  
Fight through these open wounds

Our strife  
Our struggle  
Fight through these open wounds

Beating after beating  
Throat choked under knee

Beating after beating (Beating after beating)  
Throat choked under knee (Throat choked under knee)  
Help me please  
Because I can't breathe  
Just stop the bleeding

Body after body (Body after body)  
Piles up in the streets (Piled up in the streets)  
Stand and fight  
Not another life  
Just stop the bleeding now  
The bleeding now  
The bleeding

Our strife (Our strife)  
Our struggle (Our struggle)  
Fight through these open wounds
