Crash

Mack Wilds

Baby it ain't no secret
That you're worth saving
When these 4 walls cave in
Hope your memory sticks
It all seems so easy
When our love was patient
Now the vision is faded
No more getting it back

We got all day all night
To say what's on your mind
Its the same shit on repeat
So how bout we spend some time
Turn off this broken record girl
Angel, won't you sing for me

It's all fun and games
'Til someone falls outta love
Nothing's ever enough
Still they try and play
It's a crying shame
We been losing our minds
Just to move and rewind
And crash anyway... anyway
Crash
Crash
Crash
Crash

Girl you're my pain and pleasure
Hurt me so good
I will never leave you though I know I should
But if we stay together
We both know
We'll just end up going down the same road

We got all day all night
To say what's on your mind
Its the same shit on repeat
So how bout we spend some time
Turn off this broken record girl
Angel, won't you sing for me

It's all fun and games
'Til someone falls outta love
Nothing's ever enough
Still they try and play
It's a crying shame
We been losing our minds
Just to move and rewind
And crash anyway... anyway
Crash
Crash
Crash
Crash
