

They say that I'm down, on my luck
Well, tell me have you seen her around? I've lost my love
See, maybe I was gone to long
I shoulda been home, I was on the road
And I been blowin' up her phone
Swear I done tried everything, but it never worked

I think her heart got cold inside
And the rain, started to fall
But she don't wanna hurt no more
Said she wanna go, explore
Go, explore
They say love is a battlefield
I'm lost in the war
She wanna explore

I tried to talk to my friends
Just to get some help
Too many problems of their own
So I guess I gotta help myself...
What do you do when you love her
But you know she love somebody else...
Guess you gotta take the good with the bad
But I can't stand how it feels...

I think her heart got cold inside
And the rain, started to fall
But she don't wanna hurt no more
Said she wanna go, explore
Go, explore
They say love is a battlefield
I'm lost in the war
She wanna explore
