Mack Wilds

I got you on my mind  
It happens like all the time  
I promise to make you mine, let's go

I got you on my mind  
It happens like all the time  
I promise to make you mine, let's go

Think I'm afflicted  
Afflicted by you  
Call me addicted  
I'm addicted to the way  
You came and put it on me  
So fuckin' right  
(The type to make a nigga, wanna spend the night)  
Now you got me in a zone, and I'm  
Stuck on the phone  
Creeping through your Instagram and Twitter  
While shorty's home  
And the problem all along  
Is I don't see nothing wrong with us  
(I mean we all human, right?)

Guess I'm conflicted  
I'll be your mister  
Work for your interest  
Just, pay me in kisses  
Won't give up 'til you witness, so come on

All I want is some time  
The time to change your mind  
But you ain't with it, babe  
All we need is some time  
Your man?  
Don't play him no mind  
'Cause baby you

You  
You and me  
We could be  
What I see  
Together, baby  
You  
You and me  
Just agree  
Make this be  
Forever baby

Shit, think about it every morning  
Pussy so good, eat it 'til you moaning  
Can't hide this sickness (uh-huh)  
You got me tripping  
My girl be flipping  
Saying she won't leave no witness  
And I be callin', callin', callin', (and don't get no answer, no)  
You, be stallin', stallin', stallin', (don't ever pick up your phone)  
Oh, how could I get through to you, baby?

'Cause I ain't gon let you play me, baby

All I want is some time  
The time to change your mind  
But you ain't with it, babe  
All we need is some time  
Your man?  
Don't play him no mind  
'Cause baby you

You  
You and me  
We could be  
What I see  
Together, baby  
You  
You and me  
Just agree  
Make this be  
Forever baby
