

Vibes

Mack Wilds

Don't let 'em turn down your light
I want you to feel these vibes
All night, yeah
Don't let 'em turn down your light
I want you to feel these vibes, oh

Visions of the skyline make her heart bloom
All I wanna do is zoom in ya boomboom
Girl you got the body like a goddess
And girl that's really me just being honest
I know you've heard this all before
But I promise I really can love you more
So I'm jumping off the sideline
Yeah, its that time
I'ma beat that pussy up, I hope it got 9 lives
When the last time he slowed it down for you?
When the last time he went some rounds on you?
I'ma do what I gotta do
For the shit that he put you thru
I know you've heard, this all before
But I'm all yours when I'm off this tour
Promise I'ma be home in a minute
In the meantime, girl don't let him pin it
Oh, no no, not tonight

Don't let 'em turn down your light
I want you to feel these vibes
All night
Don't let 'em turn down your light
I want you to feel these vibes
All night

Call you late at night, you say you bout that action
We gon make it happen like when cameras flashin'
Try to play it cool, but I know that you nasty
Yo legs bend back so far, wait, did you do gymnastics?
Tell me what you want, I'll make your dreams come true
You do that for me, I do the same for you
And I love that, that's the trust fac-tor
When I want some, I'ma run back, to her
She love it when I keep it simple, never too complicated
A lot of niggas tried to hit, but I'm the one who made it
She call me up late at night, and she tell me I'm her favorite
Like, "for you boy, I shaved it."
No lie, no lie, I ate it
Can I rub you down like a masseuse?
Get you loose, up off of the juice
Now she telling the truth
And I know this is right
And I know we so high
Don't turn down your lights
No no don't turn down your vibe
Oh no no no

Don't let 'em turn down your light
I want you to feel these vibes
All night

Don't let 'em turn down your light
I want you to feel these vibes
All night

Let's vibe again
Let's vibe again, oh na na
Let's vibe again
Let's vibe again, oh na na
Let's vibe again
Let's vibe again, oh na na
Let's vibe again
