

1999

Mackenzie Bourg

We go together
Like the wind and the weather
Curling on the couch in your favorite blue sweater
Living in the trees like birds of a feather
It was 1999 and I was like 7

Sitting on the stoop just looking at the heavens

That's the type of feelings that with you I'm getting
But some things are okay left on their own
We're better together
We're better together
We're better together

You and I
And I been, thinking of you

All day
You got me, walking on the moon

But some things are okay left on their own
We're better together
We're better together
We're better together

You and I
We're better together
We're better together
We're better together

You and I

Oh
We're feeling
We're feeling good
Oh, we're feeling
We're feeling good
Oh, we're feeling
We're feeling good
Oh
We're better together
We're better together
We're better together

You and I

We're better together
We're better together
We're better together

You and I
