

## Good Day

Mackenzie Bourg

When I walk outside with my head in the clouds  
Nothing in this world can bring me down  
I know it's a scary place with all these faces  
Everywhere I go I keep singing out

It's gonna be a good good good good day  
I'm gonna sing all my blues away  
Everything's alright when I got you by my side  
It's gonna be a good good good good day

When I walk outside all the birds sing along  
You know how to make this old house a home  
It's been a long long night  
We're gonna be alright

It's gonna be a good good good good day  
I'm gonna sing all my blues away  
Everything's alright when I got you by my side  
It's gonna be a good good good good day

It's gonna be a good day...  
Everything's alright when I got you by my side  
It's gonna be a good good good good day

It's gonna be a good good good good day  
I'm gonna sing all my blues away

Everything's alright when I got you by my side  
Everything's alright when I got you by my side  
I said, everything's alright when I got you by my side  
It's gonna be a good good good good day
