

# Heavy

Mackenzie Bourg

You like cold pizza and red wine  
And music that's not on time  
But most of all you like me

Those green eyes save lives  
They get me oh every time  
But most of all you saved me

But I hate to see you there crying  
Laying in the tub with your brain on fire  
With those meds that make you so damn tired  
And I'm trying and you're trying

I don't pray that much but I've been praying for you  
I don't really cry but lately I've been cryin' oceans  
Got me in my feelings emotions I can't deal with  
Is anybody ever ready when things get heavy?

"Sex and the City" rewinds that you've watched a thousand times  
I hate that show but I'll watch it with you

But I hate to see you there crying  
Laying in the tub with your brain on fire  
With those meds that make you so damn tired  
And I'm trying and you're trying

I don't pray that much but I've been praying for you  
I don't really cry but lately I've been cryin' oceans  
Got me in my feelings emotions I can't deal with  
Is anybody ever ready when things get heavy?

I don't pray that much but I've been praying for you  
I don't really cry but lately I've been cryin' oceans
