

# Lost & Found

Mackenzie Bourg

I was staring at my sneakers  
Get to death to go and meet ya  
Everybody had their someone  
There was nobody for me here but you  
But you, my darling

Then I called you out  
We were drunk, your hair was wild yeah  
You took me by the hand saying  
"Let's run away tonight  
Don't have to go far, wanna see the stars"

I was looking for someone  
Then I crushed into you

Don't you know  
You give me something I can't leave without  
My heart was waiting in the lost and found for your love  
It was your love that pulled me out  
The lost and found

I was hoping  
I was wishing  
Though I didn't wanna risk it  
Coz before I kissed your lips I didn't know what I was missing was you  
It was you my darling

I was looking for someone  
Then I crushed into you

Don't you know  
You give me something I can't leave without  
My heart was waiting in the lost and found for your love  
It was your love that pulled me out  
The lost and found

Oh oh oh  
The lost and found  
Oh oh oh

I need your touch  
You fixed me up  
Baby I can't get enough  
Oh, I hope you never go

Don't you know  
You give me something I can't leave without  
My heart was waiting in the lost and found for your love  
It was your love that pulled me out

Oh you know,  
You give me something I can't leave without  
My heart was waiting in the lost and found for your love  
It was your love that pulled me out  
The lost and found (lost and found)

Oh oh oh

The lost and found  
Oh oh oh  
It was your love that pulled me out  
The lost and found
