

# Confession

MacKenzie Porter

If I have one confession  
You've been my hardest lesson  
I had a dream about you last night  
Woke up missing what you felt like  
Our friends say you seem happy now  
And I'm probably the last one you want reaching out  
But my feelings haven't faded  
And if I thought that I could say it

I'd scream it from a mountain top  
So everyone would know  
I'd hold on to you for dear life  
I'd never let you go  
Yeah if I have one confession  
I'm still in love with you no question

I know I really messed you up  
I really gave your heart a sucker punch  
And it's fair that you don't wanna talk  
But if I ever got a second shot

I'd scream it from a mountain top  
So everyone would know  
I'd hold on to you for dear life  
I'd never let you go  
Yeah if I have one confession  
I'm still in love with you no question

No question, I'd show up at your front door  
No question, tell you everything I'm sorry for  
But I know you wouldn't want that  
But if you ever wanted that

I'd scream it from a mountain top  
So everyone would know  
I'd hold on to you for dear life  
I'd never let you go  
I'd tell you things I should've said a million years ago  
Yeah, if I have one confession  
I'm still in love with you no question
