

One Night Left

MacKenzie Porter

Old man standing on the corner
With a cardboard sign
Saying, "This is the End"
I was sitting there in traffic
And I don't know why
But my mind drifted to when
We went to that three-star hotel in Savannah
Drank that mini bar fridge out of drinks
First time that I thought about that summer in forever
But it made me think
Yeah, I think

If we had one night left
If this is all we get
If the sun really ain't ever coming up again, baby
If it's the last thing I ever do
If we had one night left
I'd spend my one night left with you

If we had one night left
I'd spend my one night left with you

Girl, it's been a minute
It's crazy that you called
I was just thinking 'bout that too
Sorry that we never made it
To that River Street bar
'Cause we barely left that room
Do you still got those pictures from that CVS camera?
Damn, what a damn good weekend
Now I'm think about you wearing nothing but that baby blue bandanna
Up in your hair
And I'd do it all again

If we had one night left
If this is all we get
If the sun really ain't ever coming up again, baby
If it's the last thing I ever do
If we had one night left
I'd spend my one night left with you

If we had one night left
I'd spend my one night left with you

I'd spend my one night left with you

If we had one night left
I'd spend my one night left with you

Would you kiss me?
Would you hold me
'Til the stars don't shine?
Would you tell me
That you love me
'Til the end of time?
And if the world was going down in flames
If I'm with you, I'd be okay

If we had one night left
If this is all we get
If the sun really ain't ever coming up again, baby
If it's the last thing I ever do
If we had one night left
I'd spend my one night left with you

If we had one night left
I'd spend my one night left with you

One night left with you
One night left
One night left, yeah
Just the one night left with you

If we had one night left
I'd spend my one night left with you
