

Seeing Other People

MacKenzie Porter

Oh my God she's so pretty and you're holding her hand in public
You never did that with me
If you're trying to come here and make me jealous, hell it's working
I didn't think I would be
But I am and I understand if you think I'm kinda crazy
Yeah I think I'm kinda crazy too
'Cause here I am, I'm going back on everything I said when
I didn't know what I had to lose

I thought that seeing other people was something I wanted
But I think I hate it if I'm being honest
It kills me to see you with somebody new
Thought we should see other people
'Til I started seeing other people with you

I'm trying hard not to panic and get all up inside of my head
But I don't know if I can
'Cause what if I messed up and you fall in love with her and you get married and she has your babies
What if I missed my chance

I thought that seeing other people was something I wanted
But I think I hate it if I'm being honest
It kills me to see you with somebody new
Thought we should see other people
'Til I started seeing other people with you

Ain't it just like me to want what I can't have
Is it too late now to take it back

I thought that seeing other people was something I wanted
But I think I hate it if I'm being honest
It kills me to see you with somebody new
Thought we should see other people
'Til I started seeing other people with you
