

Dream Time

Mackenzie Ziegler

It's the time to just float away
Forget about the rest of the day
A place where no one else can go
Where my thoughts and I can be alone

Need a way when it gets too much
The pressure's on, the world's in such a rush
Something snaps inside of me
I am high above the ground
Just the clouds and me
Just the clouds and me

So every night and I'm not there
Every time but I don't care
Every call but I've checked out
You know what it's all about

It's my dream time
Make believe time
Wild and free time
In my mind
It's my dream time
Fantasy time
When I leave my
Leave my cares behind

When I need to turn the volume down
And I don't want no one else around
Got to stop this crazy show
And sometimes I even shut my phone

So I take a breath and clear my head
And forget about what everyone said
Just gonna let my mind be free
I am high above the ground
Just the clouds and me
Just the clouds and me

So every night and I'm not there
Seem out of it and unaware
The lights are on but I'm not home
You all know where I've gone

It's my dream time
Make believe time
Wild and free time
In my mind
It's my dream time
Fantasy time
When I leave my
Leave my cares behind

(My) dream time
(My) dream time
Gonna sail across the sky-y
Gonna let my spirit fly high
No one's gonna take up my time (my time)

Gonna sail across the sky-y
Gonna let my spirit fly high
No one's gonna take up my time (my time)

So every night and I'm not there
Seem out of it and unaware (unaware)
The lights are on but I'm not home (I'm not home)
You all know where I've gone

It's my dream time
Make believe time
Wild and free time
In my mind
It's my dream time
Fantasy time
When I leave my
Leave my cares behind

(My) dream
(My) dream time
