

Afloat

Macseal

They played their songs in the same old bar
The one where they met splitting change in a jar
On the corner there's a diner which that
They all would meet up, make a plan of attack
And they know
They know

Yeah, they feel so stuck
Running around and they're down on luck
Yeah, it's past their prime
Staying afloat but they all feel fine

It's been two years now
They just had kids and they all settled down
And the diner that they all would meet at
It closed in the spring with financials in tact
They know
They know

Yeah, they feel so stuck
Running around and they're down on luck
Yeah, it's past their prime
Staying afloat but they all feel fine

We're staying afloat but we all feel fine
We're staying afloat but we all feel fine
We're staying afloat but we all feel fine
