

Problem Solved

Macseal

You're falling apart at the seams
You say it's all in the cards 'cause it helps you sleep
But you sit upright
Melatonin's just no match for a fight
And you're growing up again

When I ask how you are, you flash your teeth
You blame it all on the stars and laugh at me
When will I understand
Bigger than my hands
Might just mean it's not meant to be held?
Cause that's growing up again

Well I'll just give you all my money
Tell me what you want
Red is the new green once I see all your problems solved
(Give you all my money
Tell me what you want)

Well I'll just give you all my money
Tell me what you want
Red is the new green once I see all your problems solved
(Give you all my money
Tell me what you want)
