

# Blue

Macy Gray

'Scuse me while I scream  
Put your hands up if you know what I mean  
I feel it down in my bones  
I'm leaving here tomorrow  
There's a girl that I'm missing  
Baby, just in case you're listening  
I'm singing this song to you  
Everybody listen now

And it's getting dark nights, stormy weather  
And gray skies, oh but baby  
When I'm with you, yeah, they turning blue  
Harder, swimming in  
The muddy waters, oh but baby  
When I'm with you, yeah, they turning blue

Gonna pack my new shoes and my corduroys  
Got my headphones and my Android  
It's gon' take me three days to get there  
It takes three days to get there  
I ride, I ride  
I'm your ride or die, baby, and I  
I'm singing this song to you  
Everybody listen now

And it's getting dark nights, stormy weather  
And gray skies, oh but baby  
When I'm with you, yeah, they turning blue  
Harder, swimming in  
The muddy waters, oh but baby  
When I'm with you, yeah, they turning blue

Yellow like the sunshine  
Whoa, baby baby baby baby baby  
Green like money on my mind  
Whoa

Everybody listen now

Dark nights, stormy weather  
And gray skies, oh but baby  
When I'm with you, yeah, they turning blue  
Harder, swimming in  
The muddy waters, oh but baby  
When I'm with you, yeah, they turning blue
