

# Oblivion

Macy Gray

It's real sick, the state of the world today  
It's real thick, to come up and find a way  
Solution, the next time you're alone you can create a world of  
your own  
Make it magic, give it love  
Make it all you're dreaming of

(Everybody) Here in my underwear  
Sometimes I visit there, oblivion  
Ignorance is bliss  
Don't know nothing but this, oblivion  
Forget (Forget, forget, forget)  
Bounce from right to left  
Here with the broken hearted, let's get this party started (Par  
ty started)  
(Bounce left)

I eat my marimbas, oblivion  
I tingle when I sing  
Bling, bling, bling, ting, ting, oblivion  
Forget, bounce from right to left (Alright, bounce left)  
Here with the broken hearted, let's get this party started

It's tempting to pack up your throne  
Move in, make this magic place your home  
But nobody else can go  
(You'll be) You'll be forever all alone  
Forget (Forget), (Bounce), bounce (From right) from right (To l  
eft) to left (Right, left)  
No longer broken hearted (No longer broken hearted), I don't kn  
ow when it started (I don't know when it started)  
When it started, push your luck, push your luck (Oblivion), pus  
h your luck, push your luck  
Oblivion
