

Save Some

Macy Gray

It's D sound once again, live with Macy Gray
All the way from LA to Oslo
Let's D it
Alright
Save some

Tap to a little bit of
Al Green
Slap to beat
Make the bass mean
Dance till we burn
Off the bad steam
Cut up the rug
It's a funk scene

Stand in the middle
Make the crowd lean
It's 5 am
Whats its gonna be
The club might close
But we can't leave
I'm filled the vibe
That all we all need

Theres no holding back
Two steps
Don't look back
Theres no holding back
Move forward
Don't look back

Theres no holding back
Two steps
Don't look back
Theres no holding back
Move forward
Don't look back

It's 6 am now and we're still here
We love you all

He wanna move to the 2 and 4
All the moves that he got take up the whole dance floor
It's hot in here and he's fine as hell
All that's missing is a cow bell

She's wanna move to the bass drum
Proof in the roots, tell me Where you from
If you wanna let loose, baby soon come
Unbutton that suit as the strings strum

There's no holding back
Two steps
Don't look back
There's no holding back
Move forward
Don't look back

There's no holding back
Two steps
Don't look back
There's no holding back
Move forward
Don't look back
