Screamin'

Macy Gray

Don't hear nothing but bad news lately,
and all my family has gone crazy
but I guess it don't matter since the work is gonna end.
Gonna make a change at least I'll try to - will they notice whe
n I do?
And if I don't make it will you still be my friend?
So baby tell me when I'll see you again -
it'll all be better.

All of my troubles they go away
when you're on top of me loving me down,
making sounds and it's so good I am screaming.

Make you wanna throw your hands and holler,
crying cause I miss my father -
when will we get out the mess we're in?
all I want to do is reach the sky -
don't want to have to die to do that
Where on earth is my heaven?
So baby tell me when I'll see you again -
it'll all be better.

All of my troubles they go away
when you're on top of me loving me down,
making sounds and it's so good I am screaming.

In each other's arms we're safe.
Why don't we just stay that way? -
making love and loving all the time.

All of my troubles they go away
when you're on top of me loving me down,
making sounds and it's so good I am screaming
