

# Thinking of You

Macy Gray

It's everything about you that I like  
You give me motion give me butterflies  
You open doors for me you treat me right, and I do  
So much to know so much to care about  
Let them worry let them figure it out

I'm drinking and I'm thinking of you  
(I'm thinking bout you thinking bout you too)  
I'm drinking and I'm thinking of you  
(I'm thinking bout you thinking bout you too)

You look so fine there in your underwear  
Hey baby take it off lets play truth or dare  
Lets play that hold me down, that pull my hair cuz I do  
I see the world is change, I see it's strange  
All that matters is that we remain

I'm drinking and I'm thinking of you  
(I'm thinking bout you thinking bout you too)  
I'm drinking and I'm thinking of you  
(I'm thinking bout you thinking bout you too)

Hey baby take me to the other side  
Hey baby take me away  
Lets drink that wine, lets treat each other right  
Cuz I...

So much to do so much to care about  
Let them worry let them figure it out

Cuz I'm drinking and I'm thinking of you  
(I'm thinking bout you thinking bout you too)  
I'm drinking and I'm thinking of you  
(I'm thinking bout you thinking bout you too)

I'm drinking and I'm thinking of you  
(I'm thinking bout you thinking bout you too)
