

When It Ends

Macy Gray

And there you go again, walkin' out again
Here we go again
The problem is I go, wherever you go
So we're still and I'm here

And I can't fake it
And you can't take it
So we live with what it is
And when it ends

You say my name
When you tell about the best you ever had
You say my name
When you tell about the best you ever had

I see your Instagram, she's such a toe jam
Don't you give a damn
But you see, you are my habit
You're everything I have
So we're still and I'm here

And I can't fake it
And you can't take it
So we live with what it is
And when it ends

You say my name
When you tell about the best you ever had
You say my name
When you tell about the best you ever had
I'm forever in your brain
I'm the memory that you won't forget
You say my name
When you tell about the best you ever had

May I say I love you
Everything I say you take it the wrong way
You make it negative
Maybe it's with all them pills
But baby baby, when you're clear, you...

You say my name
When you tell about the best you ever had
You say my name
When you tell about the best you ever had
I'm forever in your brain
I'm the memory that you won't forget
You say my name
When you tell about the best you ever had
