Mad Caddies

i've got a thing about destruction
i've got an appetite for pain
i wanna watch it all just burn down
cause well this town's so lame
wanna see it all just float away now
wanna watch it all go up in smoke
we've gotta feed our new affliction
cause well this town's a joke
i gotta see you, when everything's gone
watch it fall
you watch it fall now
you watch it burn down
watch it burn
gonna take this city to the ground
watch it fall
you watch it fall now
you watch it burn down
watch it burn
gonna take this city to the ground
it's time to talk of revolution, get off your couch and start t
he fight
i like it when everything fucked up, cause well it feels so rig
ht
i wanna see you, when everything's gone
watch it fall
gonna watch it fall now
gonna watch it burn down
watch it burn
gonna take this city to the ground
watch it fall
gonna watch it fall now
gonna watch it burn down
watch it burn
gonna take this city to the ground
in your home town
