

Drinking the Night Away

Mad Caddies

I'm drinking the night away
Don't matter the words you say
Until the dark is day
I'm drinking the night away

It's been two weeks on the run and I'm starting to rust
I've been burning up the wick at both ends
I'm starting to feel so alone out here with my friends
I've got nowhere to go, only somewhere to be
So Keithy set me up another round
We're on watch tonight until the sun comes out

I'm drinking the night away
Don't matter the words you say
Until the dark is day
I'm drinking the night away

It's been two weeks on the run and I'm starting to crack
I have been thinking way too much about home
I've been lost in these feelings and I can't let go
I've got nothing to do, only somewhere to be
So Shatzy roll me up another cone
I heard El Dude checked out town and found the zone

I'm drinking the night away
Don't matter the words you say
Until the dark is day
I'm drinking the night away
