

Everywhere You Go (There You Are)

Mad Caddies

I've been lost and lonely too
But what can we do?
What can we do?
I have stumbled so damn hard
I drifted away with a broken heart
With a broken heart

Whoa-oh, oh
You gotta know
There's a light everywhere you go
Whoa-oh, oh
You gotta know
There's a light everywhere you go

I've had pain and darkness too
What can we do?
What can we do?
I've been backed against the wall
I walked off the edge
But I survived the fall
I survived the fall

Whoa-oh, oh
You gotta know
There's a light everywhere you go
Whoa-oh, oh
You gotta know
There's a light everywhere you go, yeah

Whoa-oh, oh
You gotta know
There's a light everywhere you go
Whoa-oh, oh
You gotta know
There's a light everywhere you go

Whoa-oh, oh
You gotta know
There's a light everywhere you go
Oh, oh
You gotta know
There's a light everywhere you go
