

## Let It Go

Mad Caddies

It's not easy being loved by someone else  
And at the same time giving it all back up yourself  
Caught between the colored lines  
Native to the home of the domesticated energy

And now the summer days have faded into years  
And all the good times shining light in all the tears  
Caught up in the reality of life and growing up  
So baby we should let it go

Cause no one's right and no one's wrong  
We should try to carry on  
In our hearts, in our souls  
Baby we should let it go  
Baby we should let it go yeah

Well all that time spent losing out is lost and gone  
To that feeling that keeps us alive, in love, and strong  
Caught up in the finality of a life that moves along  
So baby we should let it go, baby we should let it go

Cause no one's right and no one's wrong  
We should try to carry on  
In our hearts, in our souls  
Baby we should let it go  
Spinning minds in a daze  
Watching time fade away  
For our hearts and our souls  
Baby we should let it go  
Baby we should let it go yeah

Caught up in the reality of life and growing up  
So baby we should let it go, baby we should let it go

Cause no one's right and no one's wrong  
We should try to carry on  
In our hearts, in our souls  
Baby we should let it go  
Spinning minds in a daze  
Watching time fade away  
For our hearts and our souls  
Baby we should let it go  
Baby we should let it go yeah
