

Mary Melody

Mad Caddies

ive got this thing about you now
i tried to understand
so baby let me show you how
you changed my life the day you showed up at my door
ive got this notion in my head
if i go forward then i jump back again into my routine of miser
y
i try harder just to get along today
cant see things through
got just one chance left
and im barely hangin on
what can i do

when im with you
it's all i got
my forbidden pleasure and a life of smoking pot
it's who i am and i cant change
the stops have been removed
but then our lives are still the same again
thats who i am

our days on earth are short i know
with a little new direction
i can find out where to go
and maybe when i get there
baby ill see you

oh mia just wanna see ya
cause your my left footed girl
oh baby
just dont say maybe
cause youre my left footed girl
