

Sick World

Mad Sin

i'm walking through the acid rain
i'm walking through the acid rain
in my head thumbs a big steamtrain
faceless people drive me fuckin mad
you look at me instead look at you
what the hell you gonna do
arrogance is one of you're favorite sides
sick, sick, sick world
yeah we're living in a sick world
sick, sick, sick world
can't you see the way i feel
no more future for the kids
politicians just talk shit
they treat me like an animal
cause i'm against them
walking through the acid rain
in my head thumbs a big steamtrain
faceless people drive me fuckin mad
sick, sick, sick world...
