

Shatterproof

Madball

There's no justice it's just us
Lines that still ring true for some of us
As a kid I screamed those words
I knew what it meant that our voices need to be heard

Can't break it, forsake it
The foundation can't be shaken
Can't fake it, mistake it
The core is shatterproof, shatterproof

So displaced, so confused
Running from something like every single one of you
In a world of rejects and rebels
Is where I found myself on the same level

Can't break it, forsake it
The foundation can't be shaken
Can't fake it, mistake it
The core is shatterproof, shatterproof

Look how far we've come
And it's only just begun

No one can break us - no no no
The bond is forged by blood
Whether you love or hate us
No, no one can break us - no no no
This bond is concrete
Like the streets that made us

We were the victims in pain and abused
The unruly class with nothing to lose
Now were leaders, fathers, teachers
But through it all our brothers keepers

Can't break it, forsake it
The foundation can't be shaken
Can't fake it, mistake it
The core is shatterproof, shatterproof
