

## Blue Magic

Madchild

Cute girls with boob jobs  
Light blonde hair, blue nikes and white tube socks  
New school  
Wash down Vicodins with juice box  
Madchild get so stressed I say oosa  
Oosa  
Your arrogance offends me  
Terribly urgently  
My therapy's a Bentley  
To true addict  
Mad pure as dope on the street like blue magic  
Get you hoppin' like a frog leaps  
Stop you then I drop you then I chop you into dog meat  
The mighty allegiance of heroes is calling  
Temples are burning, the statues are falling  
Get swept from the earth, it's destruction  
A sacrifice after my birth  
Order execution  
Release me from beast, keep your distance  
Master and apprentice, Disaster for a dentist  
Bastard with a pack of matches, gasoline and vengeance  
Faster than a engine while I'm blastin' up a sentence  
I have to be an end of me, I'm actually pretending  
I'm smashin' while i'm thrashin'  
These graphics are authentic  
Half of us are pacifists the other half are venting
