Last Emperor

Madchild

Yeah
Yo
Yo
Yo

Don't pretend I'm not as violent as a dropkick
Crazy like a kamikaze pilot in a cockpit,
Brashness of demons spitting flames
I'm a fire lord,
Elegant and dangerous like a angel with a fire sword,
Fly like a falcon,
Grip you like a vulcan,
Flip you like a dolphin,
Then hit you like I'm golfin',
We got the family back together like the Huxtable's,
Now I'm back to blowing up again like I'm combustable
Don't give a fuck about a rapper cause he's younger man
You see the strongest will survive like it's the Hunger Games
Steppin' with my weapon
Or
I'm the deafest leprechaun
Hot and I won't stop
Until I'm fucking upper echelon

I'm the last
I'm the last
I'm the last emperor
Little tattooed midget with a bad temper,
I'm an underground king
I'm a rap mentor
I got a heart made of gold with a black centre

I'm the last
I'm the last
I'm the last emperor
I'm the king of this castle but you can't enter
I'm an underground king
I'm a rap mentor

I'm the last
I'm the last
I'm the last emperor

Everything you spit
It is wishy washy
My personalities combined
Make a vicious posse
Wonderful like witchcraft
Colourful like Riff Raff,
Blow a bit of piff back
I'll throw up on a sick track,
Fellas kicking lyrics like Tianjin Wushu
Do a show and pay the fucking rent
And buy some new shoes
This new shit is big dawg
Relevant elephant
These rappers they are soft dawg

Gelatin skeleton
I get words from movies
I write my rhymes on looseleaf
I still get reclusive
I still sweat profusely
I still got the best kung fu
Call me Bruce Lee
I still got a bad hairline
And need new teeth

I'm the last
I'm the last
I'm the last emperor
I'm the king of this castle but you can't enter
I'm an underground king
I'm a rap mentor

I'm the last
I'm the last
I'm the last emperor

I breathe fire like a dragon
Breathe fire like a dragon
Madchild come up with words you can't imagine
I breathe fire like a dragon

Mystic northerner
Encrypted messages
My blood is pure dawg
Persistant pessimist
My thirst is merciless
My hungers infinite
My words are virtuous
My brains my instrument
I'm only half man
I'm a saboteur,
But I get love from my city like Macklemore,
I was a king now I'm a legend in a shallow lore
Friends were full of shit so now I dodge 'em like a matador
New son of heaven I am riding on a dragon
In human form a b-boy that is riding with a magnum
These kids they know it is impossible to keep me quiet
They know it's on now
Cause they awoke a sleeping giant

I'm the last
I'm the last
I'm the last emperor
Little tattooed midget with a bad temper
I'm an underground king
I'm a rap mentor
I got a heart made of gold with a black centre

I'm the last
I'm the last
I'm the last emperor
I'm the king of this castle but you can't enter
I'm an underground king
I'm a rap mentor

I'm the last
I'm the last
I'm the last emperor

I breathe fire like a dragon
Breathe fire like a dragon
Madchild come up with words you can't imagine
I breathe fire like a dragon
