

# Last Emperor

Madchild

Yeah  
Yo  
Yo  
Yo

Don't pretend I'm not as violent as a dropkick  
Crazy like a kamikaze pilot in a cockpit,  
Brashness of demons spitting flames  
I'm a fire lord,  
Elegant and dangerous like a angel with a fire sword,  
Fly like a falcon,  
Grip you like a vulcan,  
Flip you like a dolphin,  
Then hit you like I'm golfin',  
We got the family back together like the Huxtable's,  
Now I'm back to blowing up again like I'm combustable  
Don't give a fuck about a rapper cause he's younger man  
You see the strongest will survive like it's the Hunger Games  
Steppin' with my weapon  
Or  
I'm the deafest leprechaun  
Hot and I won't stop  
Until I'm fucking upper echelon

I'm the last  
I'm the last  
I'm the last emperor  
Little tattooed midget with a bad temper,  
I'm an underground king  
I'm a rap mentor  
I got a heart made of gold with a black centre

I'm the last  
I'm the last  
I'm the last emperor  
I'm the king of this castle but you can't enter  
I'm an underground king  
I'm a rap mentor

I'm the last  
I'm the last  
I'm the last emperor

Everything you spit  
It is wishy washy  
My personalities combined  
Make a vicious posse  
Wonderful like witchcraft  
Colourful like Riff Raff,  
Blow a bit of piff back  
I'll throw up on a sick track,  
Fellas kicking lyrics like Tianjin Wushu  
Do a show and pay the fucking rent  
And buy some new shoes  
This new shit is big dawg  
Relevant elephant  
These rappers they are soft dawg

Gelatin skeleton  
I get words from movies  
I write my rhymes on looseleaf  
I still get reclusive  
I still sweat profusely  
I still got the best kung fu  
Call me Bruce Lee  
I still got a bad hairline  
And need new teeth

I'm the last  
I'm the last  
I'm the last emperor  
I'm the king of this castle but you can't enter  
I'm an underground king  
I'm a rap mentor

I'm the last  
I'm the last  
I'm the last emperor

I breathe fire like a dragon  
Breathe fire like a dragon  
Madchild come up with words you can't imagine  
I breathe fire like a dragon

Mystic northerner  
Encrypted messages  
My blood is pure dawg  
Persistant pessimist  
My thirst is merciless  
My hungers infinite  
My words are virtuous  
My brains my instrument  
I'm only half man  
I'm a saboteur,  
But I get love from my city like Macklemore,  
I was a king now I'm a legend in a shallow lore  
Friends were full of shit so now I dodge 'em like a matador  
New son of heaven I am riding on a dragon  
In human form a b-boy that is riding with a magnum  
These kids they know it is impossible to keep me quiet  
They know it's on now  
Cause they awoke a sleeping giant

I'm the last  
I'm the last  
I'm the last emperor  
Little tattooed midget with a bad temper  
I'm an underground king  
I'm a rap mentor  
I got a heart made of gold with a black centre

I'm the last  
I'm the last  
I'm the last emperor  
I'm the king of this castle but you can't enter  
I'm an underground king  
I'm a rap mentor

I'm the last  
I'm the last  
I'm the last emperor

I breathe fire like a dragon  
Breathe fire like a dragon  
Madchild come up with words you can't imagine  
I breathe fire like a dragon
