

Lawn Mower Man

Madchild

Yeah
Lola, Jekyll
Yo

I'm screaming out for help
Nobody's helping me
Fly like I'm a falcon
On a balcony in Calgary
Everything I touch I turn to gold
Like alchemists
Heart is palpitating
Eating Alpo I'm allowed to be
I'm top dog now
Top of the food chain
Opposite of Mellow
Spittin' yellow and blue flames
I'm the little goblin
And I'm probably pumped up
Dumb fucks don't even know
What's up I'm a dump truck
I'm still anonymous
I'm still an Anarchist
I'm still a man who's here
To mentally molest you mannequins
If you don't understand the match
Read the manifest
Smoke a rapper like Mr. Dizaster did to Canibus
If you don't like it change the channel
I'll dismantle any panelist and hammer him
Until he needs an ambulance
Riding through the desert on a camel wearing camo print
Ammo will go blammo
Got you covered like a laminate
It's the abominable snowman
Stick a sword through your abdominal
Like Conan
I'm a crazy artist call me Van Gogh
Son I'll bring the Anarchy
Like I'm from SAMCRO

(I am) I'm the lawn mower man
I'm the lawn mower man
I'm the lawn mower man
Powerfully electric
With an ongoing plan [x2]

Had it all but lost it due to bad habits
Old dude still rock like Black Sabbath
Madchild bouncing back like I'm a jack rabbit
Dagnabbit, a white boy that raps savage
I'm an artifact, I'm a rhyming lord
I rip the spinal cord right out of a dinosaur
I beat a rapper up so bad they'll need a crime report
I fuck a pussy rapper up till his vagina's sore
Strike, I'm a strange and deranged cobra
Chains to remain sober, the danger and pain's over
I said I'm fly like Astro Boy

Rip your fucking Face/Off like Castor Troy
I'm fat like Honey Boo Boo, I'm fucking cuckoo
I'm the little engine got caught, I go choo-choo
I play the ukulele, sing I'm proud to be Canadian
Can't help it, I'm a hyper-hyperventilating alien

(I am) I'm the lawn mower man
I'm the lawn mower man
I'm the lawn mower man
Powerfully electric
With an ongoing plan [x2]

Yo
I guarantee that I use words nobody else has
Beating rappers up so fucking bad
I almost felt bad
Cause I am dope
It's a fact I can't help that
Slashing through these rappers
Like a motherfuckin' hellcat
Heavenly but I'm a little devil in a bat cave
Last 5 years Mighty Mouse was in a rat cage
Red dragon spitting fire until my face is warm
I spit lit gasoline and vomit agent orange
Older than a rotary phone
Mind totally blown
Silver Surfer I am moulded in chrome
Super Beast!
My testosterone is right through the roof
But I'm sober now
I'm Percocet and Vicodin proof
Super Beast!
I'm in a total zone
Take a shot of cortisone
Leap tall buildings and I bench press motor homes
Raining in my city and now and everything is turning grey
Goblin drinking from a golden goblet
By a burning tray
