

## Never Die

Madchild

Dream as if you'll live forever  
(Never, never die)  
Live as if you'll die today

Discussions with myself like I'm walking with Gandhi  
Trying to inspire but I'm talking to zombies  
This little rascal is one bad hombre  
Talk tough, grab my dick, and walk calmly  
Still a one man militia  
Verse mercenary, navy seal, top condition  
Stop opposition, in cock block position  
Top rocker read: Mad crush competition  
(I'm crushing your head)  
It's tough not to listen  
Keep your mouth shut, won't give up my position  
Dip the cynical in acidic fluid  
Give me any banger and I'll burn right through it  
Full of gas, that's partially my arsenal  
An arsonist burning through a profit line, it's marginal  
Feel the harshness of a carpenter's hand  
In demand like a white bartender in a parlor in Japan  
Get started, that's a part of the plan  
Higher that you get, the harder that you land  
Little bad wolf, I'm back to slaughter lambs  
Signing autographs from Vancouver to Rotterdam  
Madchild the arrogant, Mad the barbarian  
Face tatted aryan is back on a tear again  
Take a AK to the KKK  
Torture motherfuckers, I could take all day  
Wild shorty in my bed, I'm a Rottweiler  
So much weight on my shoulders that I'm lopsided  
Move through obstacles quick  
Girls suckin' on my dick like it's a Popsicle stick  
Underground sex symbol  
I think you're cute, you got a man? You should get single  
I'm sayin' let's mingle  
Bingo, more chips than a truck full of Pringles  
And I'm back in the states so tell the senoritas come fuck with  
this gringo

Hey, never die  
I'm here to stay, it's quite simple  
I'm dressin' like Mr. Rogers man, cardigans and tennis shoes
