

## Oxylude

Madchild

Oxycotton can quickly turn a casual user into a full blown addict  
That was the thing I was ready to give my life over to  
Your entire body (um) will do anything  
I didn't know that eventually will cause the destruction  
It was a struggle everyday  
I needed them just to get through my day  
I was down at the Bahamas, it was hell the whole time being there  
Can't sit still massive amounts of withdrawal  
And I realized right away, I was addicted  
I was ruining my career, my family, my life  
It wasn't me
