

# Poison

Madchild

That's no other feelin' on earth  
I try to feel  
But it hurts  
I feel like a million miles away  
Dealin' with this poison

It felt so far away  
Lookin' back I've realized  
I was just hidin' from the pain  
Check, my head was constantly in the clouds  
That's why I feel like I'm lost in space  
Dealin' with this poison

Yo, I am lucky just to be alive  
'Cause I've pushed it to the limit  
Now I've realized  
Listen  
I shouldn't even be here  
So every night I thank God  
That I can think and see clear  
Lost in space and feelin' stranded  
I was on a mothership  
And I've finally landed  
People that I love  
They didn't leave me stranded  
So I'm back to finish what we started  
How we planned it  
'Cause after black magic  
This will attract savage  
Went from above average  
Down to a drug addict  
The devil on my shoulder with a pitchfork  
Piss-poor  
Thinking what the hell do I do this for?  
But now I'm back  
And I can kill on the freestyle  
But you won't see my smile  
Cause I'm embarrassed of my teeth now  
Takin' pills  
Now the sugar did a number on them  
And that just one of another other hundred problems  
I'm an ugly goblin  
I'm a dirty troll  
Misguided angel with a bruised face and hurtin' soul  
Sittin' in the corner  
Staring out into a distance  
Truly like a zombie  
Hospital gown and wrist band  
Listen

That's no other feelin' on earth  
I try to feel  
But it hurts  
I feel like a million miles away  
Dealin' with this poison

It's nothin' like it

And that's the problem  
I felt like I was a million miles away  
I see clearly now, tho  
Shit's real

Two years later  
Now I write the second verse  
I'm on the verge of blowing up on every record burst  
I don't even think about some coke  
And grabbin' opiates  
I'm makin' money now from snappin' like a scorpion  
Shows sober, now 'causelife is full of choices  
My voice makes a girl's pussy moist as some oysters  
And every night I like to find myself another groupie  
Without a straw stuck up her nose  
And fucking perfect boobies  
That means that she ain't high on cocaine  
Hard to have a conversation with a girl with no brain  
Not that I really wanna talk a lot  
I'm tired from the show  
Just rub my back and make my cock a rock  
Yeah, and suck it like you mean it  
Pretend my dick's a big rock of crack  
And you're fiendin'  
Not that I've leaned to fuck for hours without drinking  
Lookin' back  
I don't even know what I was thinking

That's no other feelin' on earth  
I try to feel  
But it hurts  
I feel like a million miles away  
Dealin' with this poison

How many of you understand real pain  
Livin' inside of real trap  
A day to day trap  
Everyday of your life  
It's hard to explain  
That's no other feelin' like it  
I'm so thankful now I can finally see clear  
I'm livin' life now
