Look

Look

Look

I'll tell a bitch to skate  
Won't even look at her twice  
She got the devil inside  
Not a angel, she isn't a prize  
Demons are looking for purses  
With Covid they're getting more thirsty  
You gotta ask yourself  
Is hitting that pussy real worth it?  
Fuck her then tell her that she gotta go  
I don't care how she look of that bitch is a ho  
Red flag, big tattoos  
That's unfinished, that's bad news  
Got razor scars on her arms  
That's not steak, that's fast food  
Look, if she got only fans she lazy, she a bum  
She stripping then she working, but she crazy as they come  
Fuck that daddy shit you average bitch, you got good at your make up  
Mad, cause you took your wig off and I said let's break up

You just a filthy bitch huh  
You just a filthy bitch ay  
You gon fuck anyone huh?  
Long as they filthy rich yeah

Rinse my enemies and then I throw them in the tumble dryer  
How they gonna put a bunch of pussies against a jungle lion  
I get hungry, eat these younglings like a bunch of jumbalya  
Watch out for the cops, watch for opps, could be under fire

Ay I feel alive when I rap  
White don with a white don  
I'm a python, better pipe down  
We all strapped up and got pipe bombs  
I'm an icon, you're acorn  
And I'm nuts too, but you'll pay for it  
Never payed for pussy once boy  
I don't pay for it, I won't wait for it  
Got it locked down like it's 8th ward  
And I'm a warden that's straight forward  
I made money, I lost money  
I love money so I'll make more of it  
Don't like people, wont lie about it  
I don't care, don't cry about it  
If I like you, you'll know about it  
The way I move, you'll never doubt it  
Surrounded by wolves we are growlers  
Under surveillance by cops in their prowlers  
Fucking with donkeys but I am a stallion  
Chill like I'm popping a couple of valium  
Plus we the mob like a bunch of italians  
We got some soldiers, bunch of battalions  
Shit popping off, when they start rallying  
Happen so fast, shit can get violent

Take off you rings, take off your watch  
Take off your chain, hide your medallions ay

Rinse my enemies and then I throw them in the tumble dryer  
How they gonna put a bunch of pussies against a jungle lion  
I get hungry, eat these younglings like a bunch of jumbalya  
Watch out for the cops, watch for opps, could be under fire
