

You haven't seen a big monster running around anywhere have you?

I'm narcissistic
My art's sadistic
I'm dark and twisted
My hearts conflicted
Too many personalities that aren't consistent
I'm harshly gifted once this martian's lifted
Stay out of my spaceline out into the orbit
Trying to play it safe and I'm not trying to be morbid
I will never forfeit viking in my warship
You just wrote a verse while I paint another portrait
Shane touch the pen that's a paintbrush to canvas
Mad sleepy wound and there ain't much to bandage
My mind feels like a minefield (be careful)
Cheerful, Mad will give you all another earful
Rappers they are fearful, tears filled eyes up
Wise up, you already knew that I would rise up
And now they wanna battle but I'm battling myself
See I battle with my demons battling my mental health
I don't care about your shit
I don't care about your drip
Only care about my whereabouts and where I'm 'bout to rip
Only fear myself and hear myself these other rappers suck
'Bout to take another selfie make my lips like Daffy Duck
I'm 'bout to

Slow-motion better than no motion
Shredded and so potent
Getting into commotion
Slow-motion better than no motion
Head is in psychosis get it? I'm explosive

I am done with the destruction it's time for some regrouping
Can't fuck with smartphones these are making me more stupid
Smarter than this man, starting my next plan
Time to just man up cause I'm harder than this man
Showboat to an old ghost in the gold coast
No goal take my last shot hit the goalpost
No bro not a nice yacht that's a rowboat
Hobo with my Porsche hot so I'm so-so
And once this cycle hydro [?] just see life is hopeless
I just smoked a dip again and then I microscoped it
Silver surfer and I'm flying through the solar system
Funny thing is I'm just trying to get my own precision
I used to would have loved you on your worst day
Now I wouldn't even fuck you on your birthday
Realize realize lies that's the best thing
I won't like you to lies like an x-ray
I share my vibe with the crowd that's an exchange (why?)
Tell my why'd rap game had a sex change why?
